#### PROTECTION

'Flex Led Tape' are not protected against overvoltages, overcurrents, overloads or short-circuit current.

The LED Power Supply must provide the following protection: SELV - Short-Circuit protection - Overload protection - Overtemperature protection

Les 'Flex Tape LED' ne sont pas protégés contre les surtensions, les surintensités, les surcharges ou les courants de court-circuit.

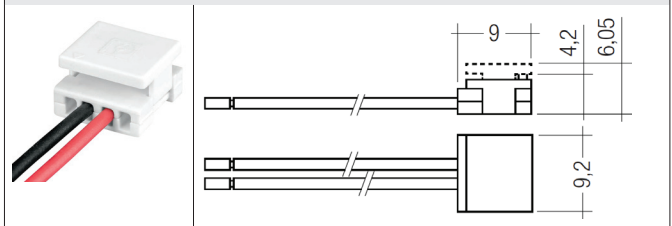

Le transformateur LED doit fournir la protection suivante : très basse tension de sécurité (TBTS / SELV) - protection contre les court-circuits - protection contre les surcharges - protection contre la surchauffe.

Das 'Flex Led Tape' ist jetzt gegen Überspannungen, Überstromstärke, Überladungen und Kurzschlussstrom geschützt.

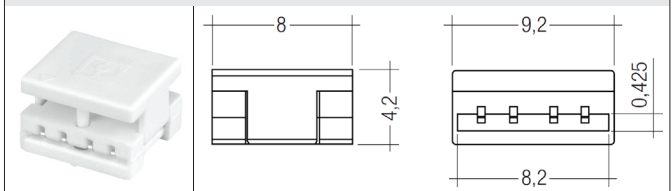

Der LED-Treiber muss folgenden Schutz bieten: Schutzkleinspannung (SELV) - Schutz gegen Kurzschluss - Überladungsschutz - Überhitzungsschutz.
